

Managed Antivirus (\$3/computer)

Fully managed solution for the same price!

Our Managed AV service provides skilled IT resources, domain expertise, and centralized monitoring/management for a proactive approach to protection against viruses, spam, and malware attacks.

Detected Threat Types

There's free, paid, and managed antivirus. If you are currently on free antivirus, consider moving up to our best of breed Managed AV. If you are currently paying for AV, then move up to Managed AV for about the same price. With Managed AV you get centralized control including a realtime Health Dashboard, monthly reports, and realtime alerts. You also get our essentials agent for remoting, monitoring, and ongoing maintenance. If you have a network, you also get our network probe which monitors your network including routers, switches, and printers.

Device Lifecycle Management

Key Benefits and Features:

- **Total Endpoint Security for Your Business** - 95% of small and midsize businesses have an Antivirus installed, but 74% still experienced attacks last year!
- **Reduce Operating Costs** - A security incident can stop you from being 100% productive at work. This costs the company a lot of money in lost productivity and in opportunity costs. Removing this risk will save you money!
- **Protect Your Company's Critical Assets and Information** - Proactive technologies ensure an additional protection layer against all types of unknown malware, targeted attacks and Internet threats.
- **A Flexible Security Solution** - Our advanced security features offer the appropriate security for any size of company and network.
- **Software Firewall** - Allows laptops outside of the network to be fully protected
- **Total Peace of Mind** - Buying an AV solution, installing it, and then relying on everyone to keep it updated is a worry. Now you can rest assured that all your servers, PCs and laptops are always protected and that we are dedicated to taking care of it for you 24/7.
